

Original Life CO., LTD

GECOMAT

The good partner in your life

Original Life CO., LTD - GECOMAT

The leading brand of GECOMAT

Original Life CO., LTD have manufactured plastic net for more than fifty years. With the concept of manufacturing natural, healthy, safe and innovative products, we use breakthrough technology to apply GECOMAT to many industries. **Original Life** try best to improve quality in order to provide safe and healthy textile products to our customers.

Eco-friendly air-conditioning filter

- * Suitable for air-conditioner and central air conditioning
- * Environmental friendly
- * Washable
- * Many functions to choose
 - Disinfect
 - Deodorization
 - Allergen-resistant
 - Filter out PM2.5
 - Green water ionizer
 - Far infrared
 - Fire proof

Eco-friendly Air Purification

- * Suitable for air purification
- * Six layers, high ability of disinfect
- * Environmental friendly
- * Washable
- * Many functions to choose
 - Disinfect
 - Deodorization
 - Allergen-resistant
 - Filter out PM2.5
 - Green water ionizer
 - Far infrared
 - Fire pro

Green Energy &
Environmental Control
Window Filter

- ✧ Suitable for window and balcony shield
- ✧ Performance won't decrease after washing
- ✧ Many functions to choose
 - Disinfect
 - Anti-mildew
 - Deodorization
 - Allergen-resistant
 - Filter out PM2.5
 - Green water ionizer
 - Anti-UV

Eco-friendly
Dropped Ceiling
Filter

- ✧ Suitable for ceiling with T-BAR
- ✧ Energy-saving
- ✧ Performance won't decrease after washing
- ✧ Many functions to choose
 - Disinfect
 - anti-mildew
 - Deodorization
 - Allergen-resistant
 - Filter out PM2.5
 - Green water ionizer

GECOMAT –

Application in life

For **Original Life** Eco-friendly PP Mist-Eliminator Filter, we provide customized service to maximize the performance.

GECOMAT

Fused functional factor in every fiber, our mat is easy to clean and reusable. There is no impact on its functions after washing. Gecomat fiber can remove, settle, and resolve pollutants in air by green natural energy in environment, such as solar, wind, water, and geothermal energy.

Three-dimensional Structure

Three-dimensional cone sketch

Three-dimensional cone plan sketch

Original Life develops three-dimensional woven structure of functional fiber. In addition to increasing surface area, it makes more than 90% fiber be vertical to air flows. Therefore, it can enhance filtration performance and reduce energy consumption. Also, our filter is durable without replacing. Our products are made of PP and PE. Considering generation of electric sparks, we offer antistatic function for you to choose.

Original Life Filter of Air-purification series

✧ Introduction of major functions

★ Disinfect and anti-mildew effectively—

Based on theory of catalyst sterilizing, we use nanometer fiber to increase surface area to effectively disinfect. Confirmed by experiment, it is 99% sterilization.

★ Remove particulate matter—

Based on theory of three-dimensional conical contamination stacking, it can filter out different size of particulate matter (PM2.4-PM10)

★ Allergen-resistant—

Unique Structure makes it difficult for allergens to pass our filter. Special products added allergen-resistant material in fiber can stop allergen from generating.

★ Green water ionizer—

Using nature energy, our products can segment water molecule and generate charged water ionizer. The smaller water molecule is, the more it can spread in air everywhere. Consequently, it can completely remove air pollution and make air fresh. It's proved by experiment that our filter can effectively generate water ionizer, and the performance won't decrease after washing.

★ Far infrared—

Far infrared is invisible light. Because organism is composed mostly of water and protein, far infrared can radiate deep in skin and hypodermia, providing energy and activating cells. It's proved to increase blood circulation and body temperature.

★ Antistatic—

Considering electric sparks, we add antistatic function to reduce destruction.

★ UV-resistant—

Our products are resistant to UV, they won't degrade easily under sunlight.

★ fireproof—

Our products are made of aviation materials, they are safe and guaranteed.

Green products material safety test – RoHS

Our Eco-friendly air purification filter products certificated by ROHS are non-toxic.

You can use it with confidence.
